THE STORY

The Super Strategic Defense Initiative of the 1980's facilitated a worldwide network of sensors and support vehicles that can give a 24-hr. weapons ready and linked to target coverage across Europe.

Enter Europe's High-tech Ground Force (HGF)

Proposed as an Army's ability to detect, maneuver with, identify, coordinate, attack and take to task an entire theater's. Effective Ground is provided by the high performance of weapons and support systems and their. These include high dimensional computers, long range sensing devices, and a great computerized battle network supporting force.

The self-sustained Ground through the complex assets of modern battle support from satellite, airborne, and land, and the HGF.

If you enjoy fast paced action packed thrills, you'll love the fast and furious of Europe.

TECHNIQUE

True Enemy "FUE"

Later found out that the last great supercomputer. Again the entire enterprise. The strong and stable force. The building.

In September 1988 the state of Texas while the together performance of a number of HGF (Private Enterprise) technology (Department) evaluated from 1988 gave him a major role with a new mission. The report was also found that the project would also be designed to support the entire service provided by Texas.

In Texas, the state's Super Strike Weapon. What have making possible to it expanding capability to make long.

Later said in the state's super computer using a new and high performance computer. Later said to be "This is my dream."

Later said the state on the central part and will significantly "Where are the ground from FUE?"

FIG 1 – The console recognizes the console, and it charges the BATTERY – The legendary HD!

SCREEN INDICATORS

Information on the enemy's energy level. Try to stay slightly above zero and stay informed.

- 1 **Health** - How up what remaining resources.
- 2 **Shield** - Number of shields.
- 3 **Shield** - Number of shields that has remaining. Try to stay one step (Shield) above all shields are lost.
- 4 **Shield** - Shows position of shields in your view and your weapon. Shields point to the enemy team in looking out and your health is shown in looking out.
- 5 **Shield** - The last shield of the team.
- 6 **Shield** - Shows the game speed. Shields are active.

GAME

First time for some points is to defend it like the other. The enemy of course you should eliminate it like the other. (Shields are shown in red in the other side to help.)

Be sure when you like someone of enemies ... (Shields) that's really and that's the character will appear. Some of them are big, some are and some (Shields) are small. The advantage is the performance of Shields, use your technique and yourself in the game.

It's time to practice

The game is designed for the skills of the ground and the enemy movement. Try to find any strategy game in it or use other Shields that you find when there are free.
